

CIS 180 L - Intro to JavaScript - Fall 2006 Homework Assignment #3

Due: THURSDAY, August 31st, beginning of class

Purpose: To practice a few more JavaScript basics...

Note: as long as you meet the specifications below, you may add additional embellishments as you wish.

How to turn this in: See instructions in #3 below - you will e-mail me the URL's for your completed pages.

1. Modify **jones2_cafe.html** from HW #2 (your own, or a version that I'll soon post to the course Moodle site) into **jones4_cafe.html** so that, if the user clicks "Cancel" on the prompt asking for their order, it gives a DIFFERENT complaining message than if they don't enter Spam (e.g., "Why are you wasting my time if you are not going to order anything?")
2. Modify **jones3_cafe.html** from HW #2 (your own, or a version that I'll soon post to the course Moodle site) into **jones5_cafe.html** so that, if the user enters a number of orders of Spam that ISN'T an integer, it complains and keeps prompting the user until an integer IS entered (or, continues WHILE an integer has not been entered...)
3. When your pages are ready, send me an e-mail to **sharon.tuttle@humboldt.edu** before the deadline with **CIS 180 JS HW 3** in the Subject: line containing the URL's for your **jones_cafe4.html** and **jones_cafe5.html** pages.
